

This is what Parents are saying about Sonshine Preschool Ministries:

“Our family has been so blessed to have three of our children attend Sonshine preschool. I was so impressed by the quality of teachers, organization, communication, and attention to details that Sonshine provides. All of my children were more than prepared to enter kindergarten academically, socially, and emotionally, thanks to their preschool experience.” Ginna Randall

“We are happy to have entered a partnership with Sonshine for the education and care of our children. The embracing staff supports preschoolers in the development of their classroom behavior and teaches preschool curriculum, all while demonstrating Christian-centered beliefs. Children “graduate” ready for Kindergarten! The afternoon care is just as engaging as the preschool program and strikes the right balance of fun, learning, and rest. The summer program is a favorite in our home; our children wish they could go to Summer Sonshine year-round!” Brandon & Meredith Bell

“Can't say enough about the amazing staff! They will love, encourage, teach and challenge your children. Wish my son could stay forever! Your whole family will grow from the experience.” Denae Neisess

“Sending my children to Sonshine Preschool was the best decision for our family. They have excellent teachers and assistants and offer quality education to the students. They are highly organized. They have fun educational activities planned for kids through the school year, and parents could participate with them, too. Whenever I dropped my kids off to the preschool, there was always a sweet, welcoming and peaceful atmosphere, and I knew my kids were in good hands. At Sonshine preschool, they teach Bible verses, worship songs and important lessons from the Bible. Teachers there are so sincere, honorable and caring. Sonshine preschool is so unique because it is a ministry that shows Christ's love to the children in so many ways. We love Sonshine Preschool!” Satomi Hoven

“Thank you to you and your staff for making this summer so fun for the boys. They really enjoyed attending each day and always had something to share at the dinner table of what activity or craft they did that day. As a parent it is very comforting knowing the type of activities you were doing on a daily basis with them and it is appreciated that the values we are trying to instill in our kids directly align with the things they were doing all summer long.” Kiley Misek

“After seeing another school's preschool graduation, I realized that the kids that come out of Sonshine are much farther along academically. Thank you for having high standards and running such an excellent program! I appreciate you and the staff!” Kat Good
